MARBLE QUARRY

Marble of high quality was discovered high in the hills at the head of Snake Creek Canyon by Sidney Epperson shortly after Midway was established. From this quarry huge blocks of marble were brought down the rugged, twisting canyon on two-wheeled carts drawn by oxen. The slabs were taken to the Cornelius Springer homestead where they were fashioned into usable blocks. An early use of the marble was for headstones, some of which can still be seen in the Midway Cemetery.

One of the early owners of this quarry was Fredrick Buehler. Later, Andrew Gebhardt of Salt Lake City bought the quarry for \$1,000. He changed the name to the Wasatch Marble Company of Utah and established the company headquarters in Salt Lake City. The quarry continued successfully through the 1880's. 578

to help with construction as it always has before.

Coleman noted the fairgrounds are an economic asset to the County. For instance, it has a three-year contract for the State High School Rodeo Finals to be held at the fairgrounds for three more years, with an option for an additional two years.

Berg also suggested that \$4,000 should be invested in adding 12 new arena lights, because a new type that is available would save one third of the power costs. Coleman said the Parks and Recreation Board budget could probably contribute some funds to the project.

Berg said the small bleachers, next to the grandstand, need to be inspected and either reinforced or torn down before June. He reported his department is continuing the project of extending the fencing around the ball parks, which lessens the County's liability.

CDBG Funds

\$100,000 in Community Development Block Grant funds will be available in about a month for the County to purchase a building to house the fire engines and ambulances, according to Berg. He said he thought the County could also qualify for additional grant money in 1989.

The Commissioners plan to make an offer to buy the old Heber City office building, which includes the present fire department garage, and make some repairs with the first grant. Their plan is to remodel and improve the building with the second grant.

Berg reported that the environmental studies and reports required for the first grant have been completed. A public hearing will be held this month, and the money should be available about two weeks later, he said.

Garbage Trucks

Berg further reported that the County needs to write to Heber, Midway and Charleston cities to request them to write bills of sale for the garbage trucks they have sold to Auto-Cart, so the company can get license plates for the vehi-

Duke read a section of the contract, which only includes the price of the trucks, the payment schedule, and states that there will be a 60-month amortization at 12 percent.

County Attorney Steve Hansen verified that the equipment sales contracts are between the cities and Auto-Cart. He said the issue was only included in the garbage collection contract to benefit the cities, to assure that they would be able to get rid of their equipment.

Duke said he planned to call a meeting of the District Board immediately to ratify the contract with Auto-Cart, which was signed two weeks ago, but which doesn't include any one dollar discount for Heber citizens.

Emergency Plan

Allred complimented Berg and Sheriff Edd Thacker for their work on the County Emergency Operations Plan. However, according to Thacker, Berg "did 99.9 percent of the work."

Berg reported there will be a

recautric delays by the government that were not the fault of the construction company.

Prosecuting Expenses

The Commission approved payment of \$3,178 to Dr. Ann Tyler, who was used as an expert witness during a recent sexual child abuse trial, at Hansen's request. He said there was money available in the budget because the County had only used about half the money earmarked to provide legal counsel for defendants who can't afford their own attorneys.

He explained that the money will probably be reimbursed from the Attorney General's fund for extra ordinary prosecuting expenses, which is available to counties for complex cases. He said he had applied for the money but it couldn't be approved until June.

He said Dr. Tyler is considered one of the foremost authorities on child abuse. He said her services were used from the beginning of the investigation and that her testimony was vital to the conviction in the case.

Genealogy Classes To Be Held

There will be free classes held at the Family History Center (Genealogy Library) 700 South 200 East in Heber City starting Monday, Jan. 9. Classes will be held from 2 p.m. to 3 p.m. and will continue each week through Jan. 30.

Heber City's Centennial Tickets Available Now

Buy your tickets now and plan to attend Heber City's Centennial Banquet and Utah's Statehood Celebration Jan. 4, 1989 at 6:30 p.m. at the Wasatch High School.

Tickets available at Heber City offices and Day's Thriftway Camera Bar (purchase by Dec. 23, 1988), \$8 per person.

The lessons will be repeated in February, starting the first Monday of the month.

Titles of the classes are as follows:

Monday, Jan. 9 — "Becoming Acquainted With The Family History Center."

Monday, Jan. 16 — "Using The Family History Library Card Catalog, formerly G.L.C."

Monday, Jan. 23 — "Getting To Know The International Genealogical Index (I.G.I.)."

Monday, Jan. 30 — "Let's Summarize Using The Family Registry, Accelerated Index System, A.I.S., Parrish Records, etc."

Space is limited, so register now for the month you desire. Call Mary Ballstaedt, 654-0228, or Clyde Muir, 654-1264.

SAMUEL HAIR JR. AND MARY JANE SHELTON HAIR

Son of Samuel Hair and Hannah Mulholland Hair.

Born December 8, 1864, Dalry, Scotland.

Married Mary Jane Shelton December 19, 1889, Midway. Later solemnized in the Salt Lake Temple.

Died October 5, 1853, Midway.

Mary Jane Shelton, daughter of John Shelton and Mary Morton.

Born June 26, 1869, Midway.

Died February 10, 1944, Midway.

Children of Samuel Hair, Jr., and Mary Jane Shelton:

Monroe, married Adele Murri;

Bernell, married Rhoda Cummings;

Janet, died in youth.

At an early age, Samuel Hair, Jr., went to work in the coal mines, or collieries, as they were called, to help support the very large family of his parents.

They were contacted by missionaries and accepted the gospel. Then about the year 1878, they left their home, friends, and relatives to come to Utah. Their crossing was very uncomfortable, since they had the humblest of accommodations, and with nine children all suffering from sea-sickness, it was very hard. They arrived in Ogden after several months of travel, and would have stayed there, except for the urging of one of the missionaries, an Elder Wilson, who recommended that they come to Midway.

Samuel and two older brothers Tom and

736

John, again went to work to help support the family. He tried his hand at a number of jobs. He worked in the Coalville mines, and he and his brother John, cut and hauled cordwood out of Vallejo canyon. All of their earnings were handed over to their mother, who would sometimes give them a small part of it back. However, more often than not she had used all of it for the needs of the family. Three other children were born after they arrived in Utah, making the family number twelve children.

Samuel was always interested in mining and spent much of his early married life in the hills, prospecting. They had some cows up there and sold milk to the boarding houses. He located a number of mining claims for himself and in company with others.

They bought a place in Midway and built a two-room rock house with a lean-to-kitchen. The rock part still stands as the front rooms of the old home. He also bought a small farm and divided his time between working the farm and working his claims. Mrs. Hair stayed in town most of the time then to take care of the cows.

Samuel was very active in civic affairs and spent about 16 years on the town board, first as a councilman then as mayor, for several terms. It was always a source of great pride to him to note, that when he finished his last term as mayor he had cleared up all the town's indebtedness.

It was while he was mayor that he suffered the accident that cost him his hearing. While working on the old gravel pit near Luke's Hot Pots, he was caved on. A vertebrae in his neck was dislocated; but was not discovered until it was too late to have anything done. The main hearing nerve was pinched and as the years went by it was gradually severed, until his hearing was entirely gone.

Samuel and Mary Jane loved to dance and took every opportunity to do so. They also participated actively in the other social events of the town.

On February 10, 1946, two months after their 55th wedding anniversary, a sudden heart attack took the life of Mary Jane.

In the fall of 1946 Samuel contracted pneumonia and was taken to the home of a daughter-in-law. She nursed him through three illnesses, each one having threatened to take his life. However, his unusual physical stamina enabled him to throw them off. At

nearly 89 years of age he could outwalk many younger than himself and daily walked to town. With his eyesight fast failing he lived in a silent, twilight world with his memories and his imagination as his only companions.

The first of October, 1953, he suddenly weakened. He didn't seem ill, just too tired to attempt to get out of bed; and early on the morning of October 5th he quietly slipped away.

He was buried October 8th in the Midway cemetery.

Mary Jane Shelton Hair was the oldest daughter of John Shelton and Mary Morton. Her early childhood was spent in and around Wasatch County.

In 1876 the family moved to Alexander Canyon near Wanship where her father had a contract to cut timber. There on February 10, 1880, her mother died. The children were alone with her at the time, and she told Mary Jane to take them into the next room and take care of them. It was a very unhappy experience for small Mary Jane who was just past ten, John, seven; Margaret, five; and Steven, three.

The children were cared for by their grandmother Margaret C. Morton for a while then by their grandmother Abigail H. Shelton.

Mary Jane didn't have much chance to go to school. She finished the third grade before she started to work. She worked for various families in the town.

Although of a very retiring nature, she was full of fun, and a good dancer. She always had lots of friends and took an active part in community affairs. She taught Primary, was a member of the Relief Society, and the Daughters of the Pioneers.

After she married Samuel Hair Jr., their first home was a log cabin, which later became a granary; but was always known as "The Old House."

Samuel was interested in mining, and for many years, they spent their time in the hills.

Mrs. Hair used to drive the horse and buggy up to the mine to take supplies to Samuel and many times she rode horseback.

The hard work of her early life began to tell on her. She was ill with arthritis and rheumatism in her hands and arms, and also developed a heart condition.

She was still active and hardly missed a day going to town. On February 10, 1944,

she crossed the street to the mailbox and brought in the morning paper. She complained of being tired and lay down to rest. Samuel sat beside her and was reading her the news. When next he looked at her she had passed away. She was buried in the Midway Cemetery.

This pit has not been used for many years. Today 5-5-92 I called George Johnson, & he said he does not know of it being used in his lifetime.
